Introduction to Cloud

An Introduction

- Marcel Joubert
- BSc IT (2020 – 2022)
- Software Engineer at Entelect
- Cloud Project (~ 1 year)
- Java Project (~ 1 year)

What Is The Cloud?

- Definition: Cloud computing is the delivery of computing resources over the internet
- Instead of owning and maintaining physical servers and data centers, you can rent virtual machines, storage, and other services from cloud providers.

Why Use The Cloud?

Limited
Storage Space

Data Loss

Accessibility

Why Use The Cloud?

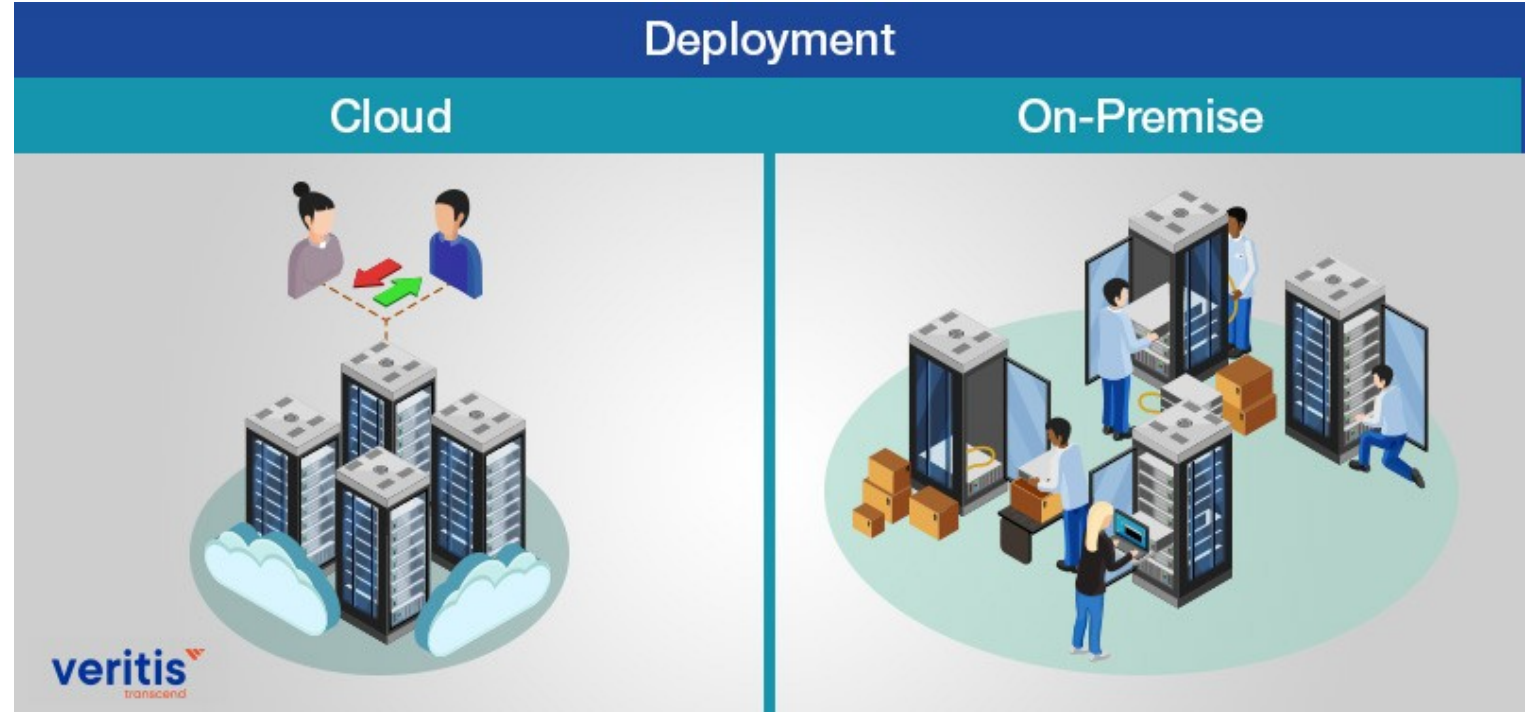

Maintenance

Cost and
Resource
Management

Scalability

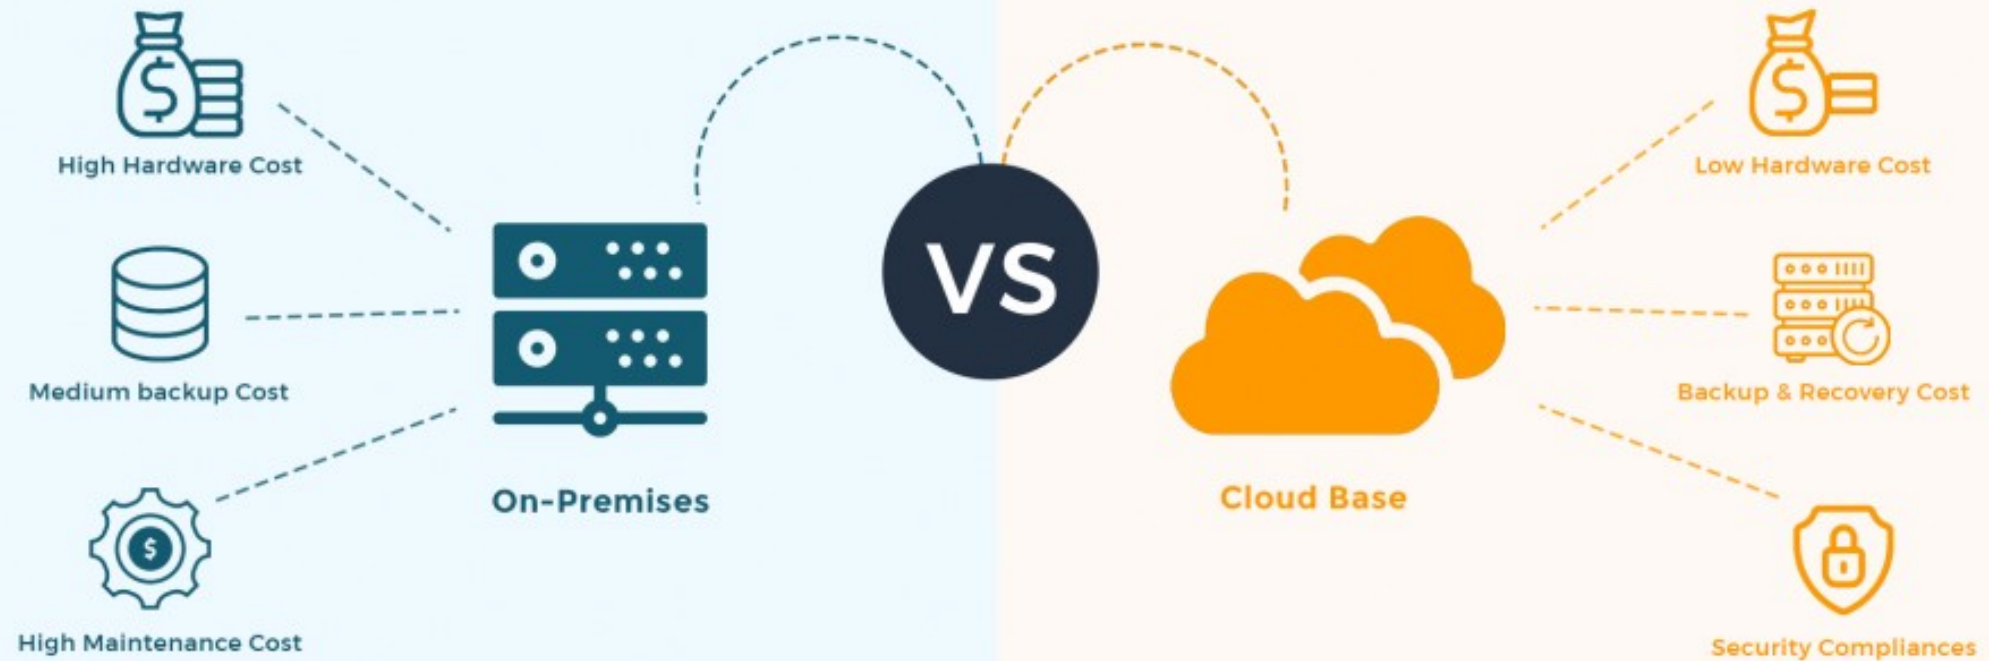

On-Prem to Cloud Migration

On-Premises VS Cloud Base

Cloud vs On-Prem

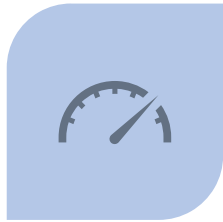

Cloud Computing	Traditional / On-Prem Computing
On-demand capability, services available in minutes	Timeline for setting up a server, might take weeks or months
Pay as you use	Large upfront costs
Very scalable	Difficult and time consuming to scale up
Built-in security	Have to take care of security
Built-in cooling and performance	Have to take care of cooling and configure server for optimal performance
Very little management required	Requires a dedicated team to manage and maintain the server

Benefits of The Cloud

INCREASED
SCALABILITY

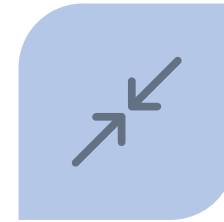

INCREASED
RELIABILITY AND
AVAILABILITY

REDUCED COST

REDUCED
DEPLOYMENT TIME

EASE OF USE

PROVIDER
MANAGES SECURITY

Regions And Availability Zones

Scale Up

Scale Out

Popular Cloud Platforms

Leading provider
with a wide range
of services.

Strong integration
with Microsoft
products and
enterprise solutions.

Known for its data
and machine
learning services.

Cloud Services

Compute Power

Storage

Networking

Software

Types of Cloud Deployments

The icon for Public Cloud consists of a solid orange rounded rectangle with a smaller, semi-transparent white rounded rectangle centered on top. The white rectangle has a thin orange border.

**Public
Cloud**

The icon for Private Cloud consists of a solid orange rounded rectangle with a smaller, semi-transparent white rounded rectangle centered on top. The white rectangle has a thin orange border.

**Private
Cloud**

The icon for Hybrid Cloud consists of a solid orange rounded rectangle with a smaller, semi-transparent white rounded rectangle centered on top. The white rectangle has a thin orange border.

**Hybrid
Cloud**

Demo time

Thank you!
